

Dear Community Health, Nutrition, Education, and Fitness Organizations:

Fit Minds, Fit Bodies, Fit Kids! Come join the fun at the **6th Annual Fit Kids Fest** and help spread the word about the amazing resources in our community. Please consider participating in our annual event as we work to improve our community's K-12 academic performance and childhood health awareness.

On Saturday, March 3, 2018 from 1:00pm – 4:00pm the Junior League of Savannah will host our annual Fit Kids Fest at Savannah State University Field #2. Fit Kids Fest is a free community event focused on promoting overall wellness for K-12 students. Children and their parents can participate in a fun interactive day that not only introduces them to academic resources in the community but also educates them on making healthy choices and living an active lifestyle. Tips on making healthy meals and snacks, fun ways to get moving, and exercises for the mind are just a few of the activities available at Fit Kids Fest. The Junior League of Savannah is collaborating with Communities In Schools of Savannah, whose mission is to surround students with a community of support to help focus our efforts. Communities in Schools of Savannah's mission, to surround students with a community of support, empowering them to stay in school and achieve in life, sets the stage for The Junior League of Savannah to partner with another organization which seeks to positively impact Savannah's youth and their families. At our event last year, more than **30 community organizations** came together to provide information on healthy lifestyles to **over 700 students, their parents and other community members** who attended the event.

We hope you will consider joining us in our community efforts. We want to include as many local partners as we can, and encourage you to participate by setting up an interactive booth that provides children and families with information about your organization that will lead them toward a holistic and healthier lifestyle. There is no cost to setting up a booth, however space is limited. Availability is based on a first come, first serve basis. Please feel free to contact us if you have any questions. Together we can impact change in our community. We look forward to seeing you on March 3!

Sincerely,

Kathy Bellios and Adele Stewart
